

ENTERPRISE SECURITY

Trust Management Hub

Scale your customer security reviews

Security reviews and assessments are an unavoidable part of doing business and for good reason – it’s important for you and your customers to build trust from the beginning. We also know that managing these requests can be overwhelming and take up too much time (and sanity).

Gain a better way to do this with a scalable, secure process that removes manual work. Use Bitsight’s trust center, Trust Management Hub, to manage all your security review requests and share your security information with just a few clicks – all through an intuitive portal.

Upload

customers

Collaborate with
customers to
complete requests

*As reported by a current Bitsight customer. Actual outcomes will depend upon a variety of factors unique to each customer and are not guaranteed.

Answer Once & Share Many to Drive Business

Accelerate the sales cycle

Give sales the ability to initiate sharing from your security profile while you maintain full control of every document. Show you enable business, not slow it down.

Streamline and automate

Save time and effort in your workflows by securely sharing from your security profile, and cut down on repetitive tasks for every customer security assessment.

Maintain control

Prevent non-security staff from saving outdated security documents and sharing them insecurely. Use Bitsight's secure repository to scale your processes.

Build trust with customers

Include SIG Core and Lite, Cloud Security Alliance CAIQ, and other questionnaires; SOC reports, ISO, HiTrust, and other certifications; Penetration tests, application scans, and other attestations; Insurance documentation and other audits.

Bitsight is a cyber risk management leader transforming how companies manage exposure, performance, and risk for themselves and their third parties. Companies rely on Bitsight to prioritize their cybersecurity investments, build greater trust within their ecosystem, and reduce their chances of financial loss. Built on over a decade of technological innovation, its integrated solutions deliver value across enterprise security performance, digital supply chains, cyber insurance, and data analysis.
